OFFICE OF

St. Louis Immigration Society,

St. Louis, June 9th 1880

Prof. G. Engelman

Dear Sir,

The "abstract" of your paper on Climatology is not and has not been in my office, and I have no recollection of having seen it. It is the only missing paper. It probably fell into the hands of one of the reporters, and was may have been published at the time of the convention. Do you know if such was the fact? If any of our newspapers printed it, I can get the printed copy, and this will answer our present purpose, and will suffice for the Condensed report, which we expect to have ready for the printer in 5 or 6 weeks. It will be a great disappointment not to have this "abstract" soon.

We hope you will find time to prepare a comprehensive paper for the very elaborate work to be issued in the fall.

Yours very respectfully

E. C. Cabell

Secretary

Office of the
St Louis Immigration Society.

St Louis
July 5th 1850

Prof. George Engelman
St Louis:

Sir:

The publication of the entire proceedings of the
immigration [illegible] and submitted, with the
county reports, in [illegible] cannot be completed
for some months. [illegible] Society has determined to issue
a pamphlet of some 300 pages - double column - containing
a condensed report of each county, which will embrace
all that is material in regard to each different county.
a good map of the State will also be appended to each
pamphlet.

Besides this, we propose to allow about fifty
pages to the general subjects treated of in special papers
[illegible] pamphlet which [illegible] much needed
want & be of great value to the State will be
scattered broadcast in this country & in Europe;
to insure which the most efficient means will be
adopted.

To accomplish this work I and my ef=
ficient assistant Mr Reushaw have been laborious=
ly engaged for some weeks & have made such progress
as to give assurance that the work will be ready
for the press during this month.

From the above you will see that but a short
epitome of each paper can be given. You would per=
haps, prefer to give, as you certainly can be [illegible]
a brief outline of the subject treated by
you before the Gale connection. [illegible] one
as you would send in answer to an ordinary

GARDEN

letter of inquiry.

Our object is to present in this publication only facts which will be of interest to the mass of people contemplating removal to the western states & to make a good handbook to Missouri, which will briefly show the general characteristics & attractions of the state, but with sufficient fullness in the county reports to enable the Emigrant to see where he find just what he wants.

Your paper entire, will be published hereafter in a book which will be standard, & better fitted for the library & for reference.

You will much oblige by favoring me with the earliest reply practicable.

Yours Very Respectfully

E. C. Cabell
